## Strengthening capacity for efficient and effective operations

With the support of the CSF grant, the project aims to fill the gap in DARD's capacity building plan through the provision of assets and training of staff on critical organisational needs such as, human resource management, advocacy, and financial management.

### Project results:

Community centric approaches to serving the needs of people with disabilities

### Key activities include:

- Training of DARD staff on programming and operational issues
- Hosting radio talk shows to create awareness about the UN Convention on the Rights of People with Disabilities (CRPD)
- Developing a strategy for lobbying and fundraising to implement the UNCRPD
- Meeting with local authorities on bills and legislative processes affecting people with disabilities
