Building capacity to respond to organisational and community needs

With the support of the CSF grant, the project aims to assess what HAPD staff and board members need to do better in order to run their project well, especially in addressing land-related concerns, finding workable solutions, and emphasising local laws for resolving land conflict in the community.

Project results:

Tackling distinct land related issues and inspiring regional approaches to resolutions

Key activities include:

- Training of HAPD project personnel to enhance competency in financial management software
- Training of HAPD Board Members to build capacity in undertaking their role more effectively
- Supporting local chiefs and headmen to create and employ bi-laws on land acquisition to address land conflict in their communities
- Advocating to enhance community understanding of procedures and legal processes involved in purchasing land
