Strengthening Women's Voices for Action and Sustainability

With the support of the CSF grant, the project aims to address major causes of capacity gaps which will enable WOTAP to more effectively reach out to the community and quickly respond to its needs. This will contribute to stable and secure communities where women and girls can exercise all of their rights without facing any forms of discrimination.

Project results:

Greater advocacy for human rights and gender equality

Key activities include:

- Five community meetings to raise awareness on gender-based violence
- Six meetings to educate the community about customary law
- Five civic education sessions on elections
- Five staff capacity building trainings
