Country/Region	South Sudan – Aweil Centre County, Northern Bahr El Ghazal State

Developing Capacities for Improved Performance Project II (DeCIP II)

With the support of the CSF grant, the project aims to improve and strengthen the organisational capacity of CIPAD to appropriately respond to communities' needs and priorities, build linkages with communities and constituents, increase constructive engagements with local authorities, and establish strong alliances with other child protection actors.

Project results:

Protect children against abuse, forced marriages, and other violations of child rights

Key activities include:

- Training of CIPAD staff on public relations, advocacy, research, and policy development, and organisational management
- Various workshops and engagement activities with various stakeholders and members of the community to plan activities and find solutions for child protection issues in the state
