Strengthening SHWDO management and governance systems to serve and amplify voices of the communities

With the support of the CSF grant, the project aims to improve and strengthen its operational ability and performance which will lead to better advocacy with local authorities on issues that matter the most to women and girls in the local communities.

Project results:

Solving local issues, focusing on women and girls through community driven resilience approaches

Key activities include:

- Review and operationalisation of SHWDO's five-year strategy, and other company policies
- Training of staff on tactical advocacy, resource mobilisation, and computerised accounting software
- Holding discussions between women and community leaders on cultural practices and beliefs preventing women in leadership and decision making
