Enhanced organisational capacity

With the support of the CSF grant, the project aims to increase the organisational capabilities of WDRO to sustain ongoing interactions with decision-makers and develop links with communities, and to identify and collaboratively address the needs and priorities of those communities.

Project results:

Strengthened community voices to enrol girls into schools

Key activities include:

- Training of WDRO staff on public relations, advocacy, research, and policy development
- Launching Girl Child Education campaign to enrol girls into schools and prevent child marriages
- Meetings with the county legislative councillors and affirmative action training with 35% female participation
- Community radio talk show about civil rights and duties
